

## The Marseille Developmental Biology Institute (IBDM) is recruiting group leaders

We invite **applications from creative early-career scientists** investigating a fundamental question in developmental biology to join the IBDM community.

The **IBDM** is an **internationally renowned research center in developmental biology** that studies fundamental mechanisms governing the organization and function of biological systems, using multiscale approaches in a range of animal and cellular models. Research activities at the IBDM synergistically connect developmental biology with molecular, cell and computational biology, as well as evolution, biophysics, neurobiology, physiology, physiopathology, and cancer. The **IBDM uniquely fosters interdisciplinary approaches** by its intimate connections with various research-training networks within the Aix-Marseille University (AMU) ([CenTuri](#), [NeuroMarseille](#), [ICI \(Cancer-Immuno\)](#), [MarMaRa \(Rare-Diseases\)](#), [Marseille Imaging](#), [Cancerôpole PACA](#)).

The IBDM, affiliated with CNRS and AMU, strongly benefits from its **collaborative and international scientific culture**, English working language, and its fantastic environment on the Marseille Luminy campus, located in the heart of the [Calanques National Park](#).

The IBDM is committed to promoting **equality, diversity and inclusivity**. The selected candidates will receive support to establish a group in a **fully renovated building**, have access to **cutting-edge scientific core facilities**, and will be assisted in obtaining a **tenured position** (CNRS or AMU) and in securing extramural funding (ATIP/Avenir, ERC, etc...).

Candidates should provide the following information in a single PDF file: a cover letter explaining their motivation to join the IBDM, a CV, a summary of their main research achievements (2 pages maximum), a future research project (5 pages maximum), and contacts of three references. Applications and queries should be sent to the search committee ([ibdm-call2022@univ-amu.fr](mailto:ibdm-call2022@univ-amu.fr)) before **March 1st 2022**. In person interviews will be scheduled from May 2022.
